New Business

1. Poughkeepsie Manufactured Gas Plant Cleanup - Update from the DEC
(*Dan Shapley*)
 - a. Turbidity monitoring will be done downstream (north or south, depending on tide) at various depths, to determine whether plan to prevent migration of contaminants is working. Hudson 7 can make a request to receive monitoring reports (as frequently as weekly, most likely) that summarize monitoring data throughout the cleanup.
 - b. Request monitoring of water quality at your drinking water intake, including baseline data. For a list of common contaminants associated with this type of coal tar, see <https://www.dec.ny.gov/chemical/24922.html>.
 - c. DEC is open to attending Hudson 7 meeting and perhaps a Joint Water Board meeting, too. Hudson 7 may request a joint DEC/Central Hudson presentation. DEC Contact is Douglas MacNeal, NYSDEC - Division of Environmental Remediation, [625 Broadway, 11th Floor](#), Albany, NY 12233-7014, Phone: (518) 402-9662, E-mail: douglas.macneal@dec.ny.gov.
2. Damian E. Helbling: Presentation on January 17th?
3. Hudson 7 Educational Opportunities around Source Water Protection.
(Emily Svenson)
4. “Source to Sea” Screening (16 minutes)
5. [Bylaws](#)
